## Una storia tra le mani

E' agli inizi degli anni '50 che nasce Pamar, una delle numerose e straordinarie realtà lombarde scaturite dalla grande voglia di fare di molti imprenditori di allora, dal loro desiderio di mettersi alla prova, dal coraggio di rischiare. Storia di uomini dunque, tenaci e intraprendenti, come Angelo Redaelli che, dopo aver diretto nel primo dopoguerra uno stabilimento di torcitura, si sente pronto per dar vita ad una sua impresa.

E' il mondo della componentistica e della minuteria metallica che lo attrae, incoraggiato dalla madre e sostenuto nel suo progetto dalla moglie, che da subito partecipa attivamente, diventando una figura insostituibile, per il suo dinamismo e spirito organizzativo.

Pamar, azienda specializzata nella produzione di maniglie, pomoli e accessori per mobili, si sviluppa con rapidità, assumendo via via la struttura definita e l'assetto di una vera industria, puntando ininterrottamente alla qualità, all'innovazione e all'efficienza.

E il successo non si fa attendere. Le maniglie di Pamar vengono sempre più richieste, affiancando e supportando con efficacia la crescita del mobile italiano e la sua diffusione nel mondo. Dalla metà degli anni ottanta l'espansione aziendale procede a livello internazionale, sia grazie all'apporto professionale dei figli, Marco, Fabio e Silvia, che collaborano con passione ed entusiasmo, ognuno con competenze specifiche, sia per la partecipazione a progetti e mostre in tutto il mondo. Le capacità organizzative e produttive di Pamar, la sua costante volontà di crescita la trasformano da semplice produttore di oggetti a partner affidabile delle più importanti aziende mobiliere su scala mondiale, offrendo loro progetti ad hoc e prodotti esclusivi: un vero servizio su misura, seguito con attenzione e competenza dallo sviluppo dell'idea alla sua ingegnerizzazione e realizzazione.

## A story in hand

As with many other exceptional companies based within the Lombardy region, Pamar was founded in the early fifties during a time when many entrepreneurs took initiative based on their desire to put themselves to the test and their courage to take risks. It's the story of determined, enterprising people such as Angelo Redaelli, who felt ready to set up his own company after managing a small metalworking company in the immediate post-war years. Attracted by the world of small metal components and accessories, Mr Redaelli was encouraged by his mother and supported by his wife who played an important and active role right from the start, thereafter becoming an essential member of the team, thanks to her dynamism and organisational abilities. Pamar specialized in the production of handles, knobs and furniture accessories, developing quickly and progressively into an industrial structure, whose objectives at all times were quality, innovation and efficiency.

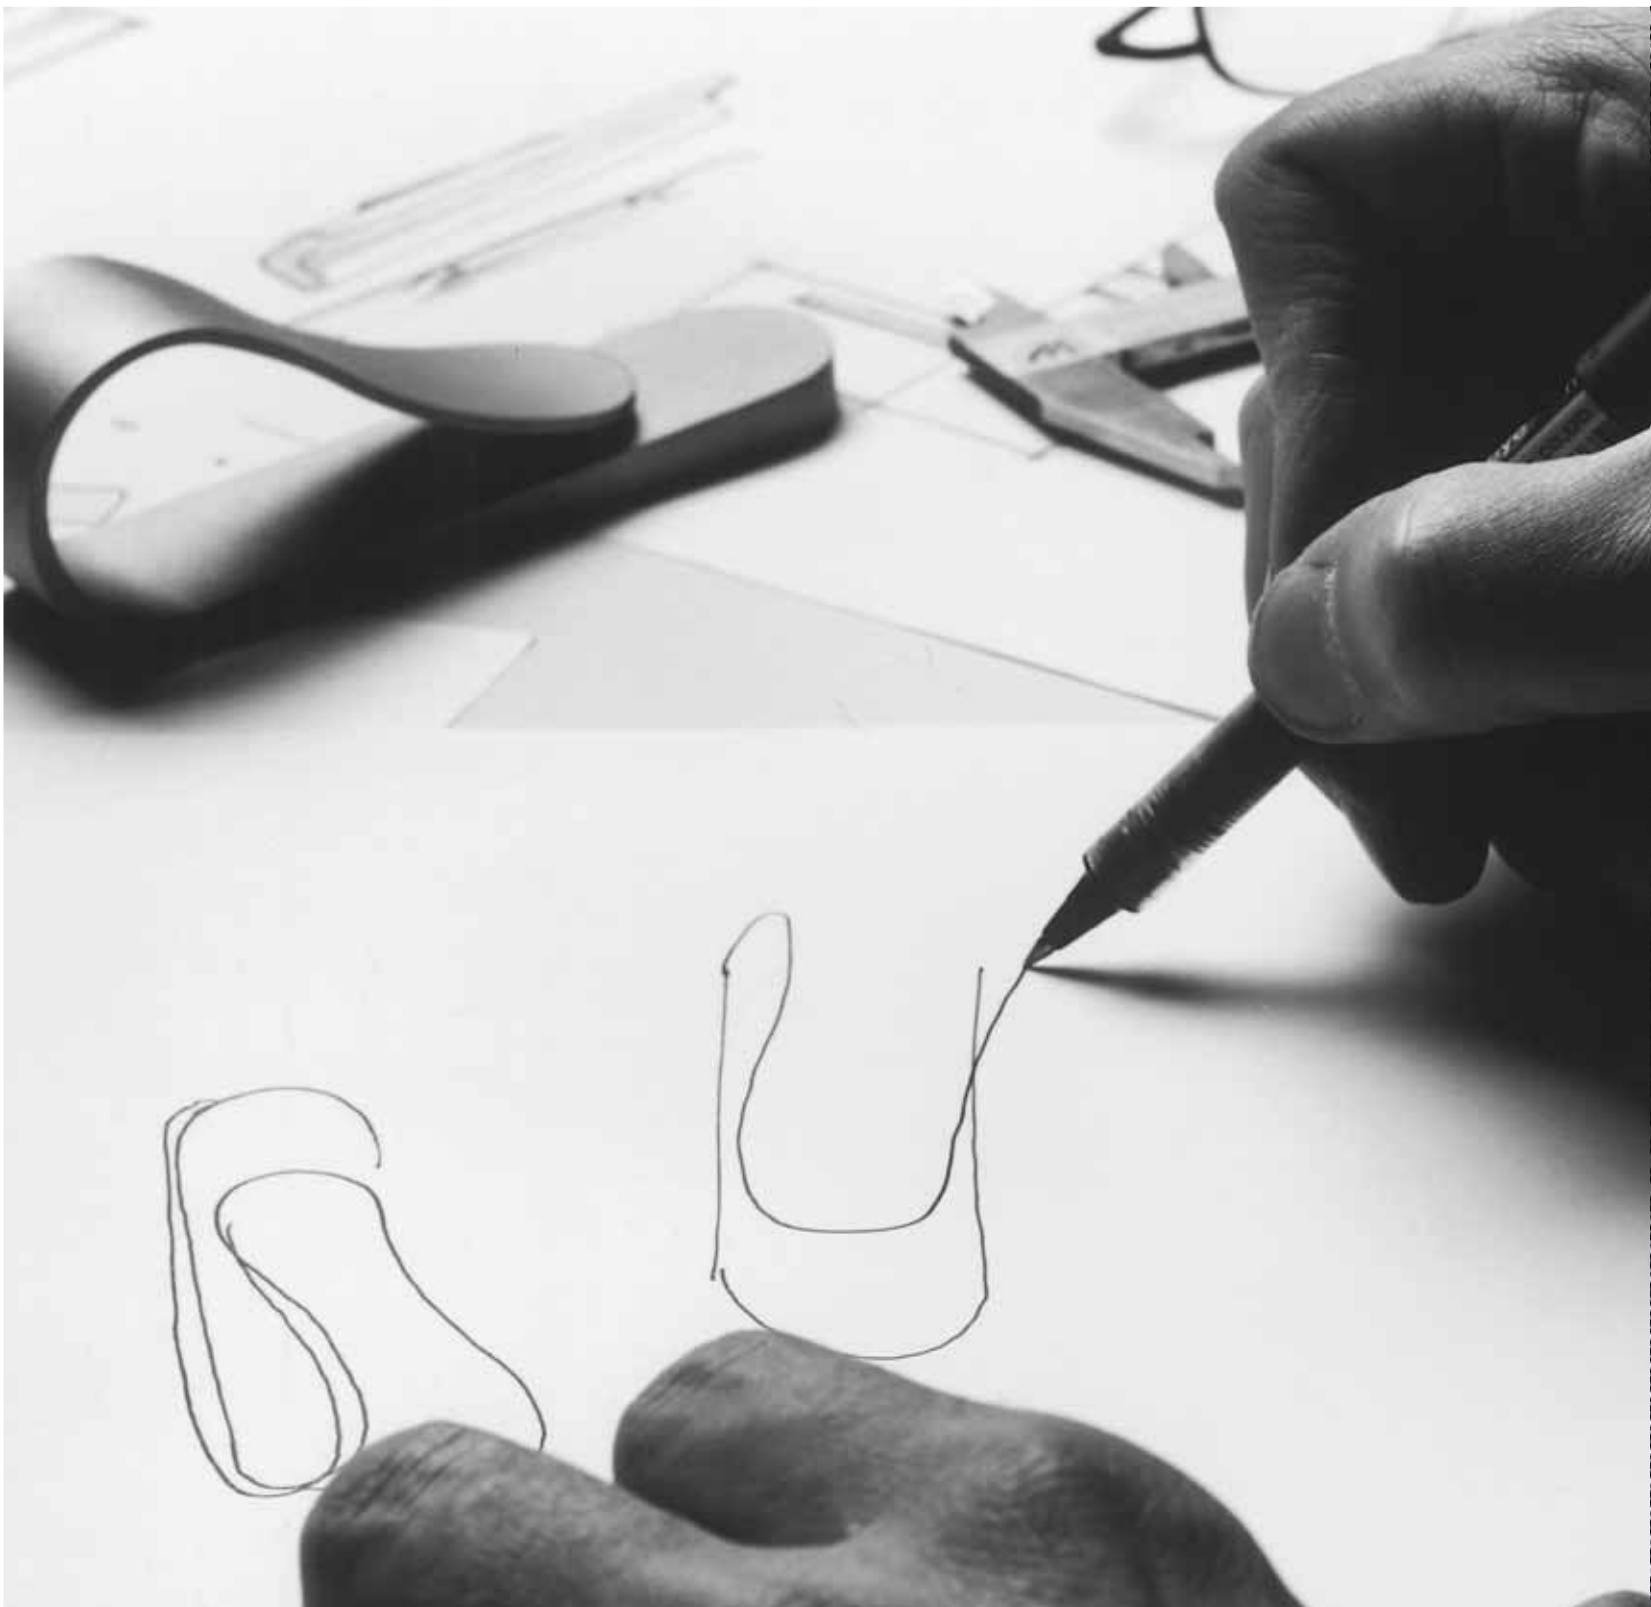

Success didn't take long in coming. The demand for Pamar handles grew as the Italian furniture sector became stronger, hence increasingly expanding its market internationally.

From the mid-eighties, the company constant growth was partly thanks to the assiduous contribution of the founder's children, Marco, Fabio and Silvia, who worked with passion and enthusiasm each with their own specific skills, and partly through the company's participation in projects and trade fair events all over the world. Pamar's organisational and production capacities and its determination towards growth have transformed it from a simple manufacturer of objects into a reliable partner for important furniture companies worldwide, to which it offers customised designs and exclusive products; a truly made to measure service, followed by care and skill from the starting development of the idea to its engineering and transformation into concrete end reality.

## Il design, un valore

Per chi, come Pamar, ha fatto della ricerca e della sperimentazione un tratto caratteristico della sua storia, è stato altrettanto naturale considerare il design un elemento fondamentale di distinzione e di costruzione della propria identità.

E' dagli anni novanta che l'azienda comincia a lavorare a stretto contatto con numerosi architetti e designers, con personalità progettuali e linguaggi espressivi diversi.

Grazie a loro, Pamar studia e sperimenta sempre nuove forme, applica nuovi materiali e nuove finiture costruendo una collezione fortemente caratterizzata: una selezione di oltre quattrocento diverse tipologie di maniglie, a ponte, barra, incasso, pomoli e ciondoli, interpretate con estetiche molteplici e con una grande varietà di finiture, capaci di rispondere in modo diversificato e innovativo alle esigenze e ai desideri della propria clientela.

Pamar oggi conosce a fondo il mondo dell'arredamento a livello internazionale: sa cogliere, anticipare e soddisfare i bisogni sfaccettati dei protagonisti di questo settore.

Per questo può proporsi non solo come semplice fornitore di componenti ma come vero e proprio partner per le aziende produttrici di mobili di design. A queste Pamar è in grado di offrire prodotti a forte contenuto progettuale, dal design ricercato e inconfondibile, realizzati interamente in Italia e garantiti integralmente. Per Pamar il design non è un semplice attributo, è il valore che esprime e sottolinea la sua realtà.

## Design as a core value

For a company like Pamar, which has made research and experimentation a way of life,

it comes naturally to consider design a fundamental element whereby it differentiates itself and affirms its own identity.

Since the nineties, the company has worked closely with numerous architects and designers, each of whom represents a different professional personality and form of artistic expression.

Thanks to them, Pamar is constantly studying and experimenting with new shapes, making use of new materials and new finishes, to build up a very distinctive collection: a selection of over 400 different types of handles, bridge, bar and recessed handles, knobs and pendants, interpreted in multiple aesthetic styles and with a wide variety of finishes. These products meet the requirements and desires of customers in diverse, innovative ways. Pamar has a profound knowledge of the furniture market internationally:

it understands, foresees and satisfies the multi-faceted needs of the leaders in this sector. For this reason, it may be seen not only as simply a supplier of components but as a true partner for manufacturers of designer furniture. Pamar offers them products with a strong design component, products of refined and unmistakable design, entirely Italian-made and fully guaranteed.

For Pamar, design is not just a simple attribute, it is a value which expresses and underpins its existence.
